

## Modular Patch Cords Cat 5e and Cat 6

Accurate Connections, Inc. (ACI) believes that patch cords do not have to be the weakest link in your network. Our connections are reliable!

ACI fabricates all of its assemblies using only the highest quality components. Our experienced production staff produces, fully tests, and packages your assemblies, insuring that they meet or exceed all applicable industry standards.

Assemblies are provided the way you want them with:

- Color choices
- Optional snag-less boots, various styles and colors choices
- Available in stranded or solid conductors with PVC jackets and solid conductors for plenum jackets
- Optional labels for easy identification
- Optional Patch Cord Certification by Softing
- Jack to plug assemblies
- Bundling
- Individually packaged

Standard assemblies are shipped:

- Individually coiled
- Bulk packaged in manageably sized poly bags separate lengths and colors.
- Packages separating the assemblies by length and color
- Each assembly including a length label on one end.

If you have special requirements, please contact us.
